

EXCITING NEW WINES FROM GIL FAMILY

# SHANIA

MURCIA • SPAIN

From the celebrated Juan Gil family, this exciting new Monastrell stands out as a truly exceptional red wine value, head and shoulders above the current deluge of so-called *wine values*.

Monastrell is indigenous to the province of Murcia in southeast Spain where it is grown in rocky and limestone soils 700–800 metres above sea level. With considerable enthusiasm for the region, the Gil family has brought their winemaking expertise and their contemporary market vision to bear on Murcia – this delicious, thoughtful, ecologically-conscious Shania is the happy result.

The 2012 Shania grapes were hand-harvested, gently crushed, and then fermented in temperature-controlled stainless steel (10 days below 27°C). Shania was created as a bright, fruit-forward wine for ready enjoyment, so there was no need to put it in glass with corks.

Perfect for everyday sipping, parties, casual dinners with friends, public events and get-togethers, the convenient, anti-oxidizing wine bag protects natural resources and curtails waste. Inside its recyclable cardboard case, the strong, non-reactive wine bag shrinks as wine is poured. Since air doesn't enter the bag, the unserved wine does not oxidize or otherwise depreciate, maintaining its lively fruit character and aromatic freshness for later enjoyment.

**outstanding value:** each 3-liter bag-in-the-box contains the equivalent of FOUR 750ml bottles
